Natick, MA 01760

Dear Gary,

I wish to express my heartfelt thanks to you for your generous contribution to *The 26th Anniversary of the Joey O'Donnell Film Premiere*. An event of this magnitude is possible only with the participation of loyal supporters like you. We are proud to announce that nearly \$850,000 was raised for cystic fibrosis research – a remarkable number.

The Joey O'Donnell Film Premiere presents the special opportunity to raise the dollars needed to make cystic fibrosis history. By funding cystic fibrosis patient care and research, you help keep this urgent cause moving forward. We are making progress with the median age for survival at almost 38 years from 35 years just five years ago. We are working hard to make that survival number go much higher with more than 30 drugs in various phases of clinical trials, including four drugs in late-stage clinical trials that aim to treat the basic defect of the disease. Any one of these (or a combination of them) could have a profound and lasting impact on those with CF. However, there still is no cure for this devastating disease that afflicts 30,000 people in the United States and therefore we must keep fighting.

Have a healthy and happy holiday season and again, thanks for your wonderful support. You've made a tangible difference in the lives of so many.

Sincerely,

Joseph J. O'Donnell

Gary -
Thanks once again
for your help over
all these years.
Joe
